

Apprenticeship

RHODE ISLAND

Apprenticeship is structured employment and training designed and driven by employers.

*Classroom education complements the on-the-job learning with a mentor and creates an “**earn and learn**” model.*

What We Do

We provide technical assistance to employers to design, register, and launch their own Apprenticeship programs to develop key talent in their organizations.

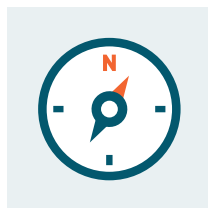

We assist Rhode Island employers, at no cost with:

- **Designing** your Apprenticeship program.
- **Registering** your Apprenticeship
- **Maximizing** state and federal financial benefits
- **Connecting** with other employers and partners
- **Leveraging** national Apprenticeship initiatives for RI

Core Components of Registered Apprenticeship

Employer
Designed & Driven

Progression

Valued
Credentials

Rhode Island employers are building Apprenticeships for the following occupations:

- Associate Network Engineer
- Pharmacy Technician
- Store Manager
- Biomedical Equipment Technician
- Data Scientist
- Community Health Nurse
- Clinical Nurse Specialist
- Licensed Alcohol and Drug Counselor
- IT Help Desk Analyst
- Medical Coder
- CNC Machinist
- CNC Programmer
- Tool and Die Maker
- Quality Control Inspector
- Marine Carpenter
- Composite Technician
- Construction Manager

Employers have recognized the value of the apprenticeship model as a key strategy to develop the skilled workforce needed for economic growth in a world of rising skill expectations.
